CYBER SAFETY A TOP PRIORITY

Federal Member for Mallee, Andrew Broad is making cyber safety for children and teens around the Wimmera Mallee and Mildura regions a top priority, having just released a new Stay Safe Online poster.

Mr Broad says the free educational tool is great for schools, parents, grandparents as well as local children and teenagers.

“In this day and age online safety is a real concern of many parents, our children have such incredible access to great things online but with that comes the threat of online bullying and harassment, as well as security issues,” Mr Broad said.

“We’ve created a unique poster that can be put up in the classroom or at home full of tips for staying safe online, both for parents and their children.”

The poster is available to pick up at Mr Broads Swan Hill and Mildura offices, along with other posters including Times Tables charts, Made in The Mallee local produce, and 100 Ways To Praise A Child.

“So far we have had a fantastic response to our poster, with other Members of Parliament wanting a copy of it for their patch too.”

“Education is certainly going to play a key role in keeping our loved ones safe online, the more we can teach our kids and even kids teach their parents about the internet the closer we are to combatting online bullying and harassment.”
